

RAILROAD NEWS

THE CANADA ATLANTIC

Becomes Grand Trunk. The C. and E. Road Desires an Extension of time

Bulletin Special Despatch.

Ottawa, December 2.—The Canada Atlantic will pass into the hands of the Grand Trunk on January 1. While it will become part of the Grand Trunk then, it will require to be operated under its own name until legislation is obtained to assimilate the business with the Grand Trunk Company.

The Calgary and Edmonton Railway Company will apply to the parliament of Canada at the next session for an act extending the time within which the company may construct branches in section 6 of the Act 3, Edward 7, Chapter 89, and also amending sub-section A of the said section 6 so as to read as follows:

"Starting at Wetaskiwin, and running in an easterly direction for a distance of one hundred miles."

OFFICIAL COMPLAINT

FROM JAPANESE GOVERNMENT

Regarding the Coaling of the Russian Pacific Squadron at Vigo, Spain

Madrid, December 2.—Japan has made an official complaint to Spain regarding the attitude of the Spanish Government in permitting vessels of the Russian squadron to coal at Vigo. Spain has replied explaining the situation and taking up the position, that Spain observed the strictest neutrality.

TELEGRAPHIC BRIEFS

BIGGAR APPOINTED

Chief Solicitor of G. T. P. and Cowan Assistant Solicitor

Ottawa, December 2.—Mrs. Beary, daughter of Millionaire E. J. Hall, has been declared to be insane.

Fort William, December 2.—The Canadian Pacific boat Alberta left on her last trip. Eleven grain boats are waiting for cargo, and there is plenty of wheat for them.

Bellville, Ont., December 2.—The ballot box case suddenly adjourned owing to the sudden illness of the magistrate.

Ottawa, December 2.—Preston's naval scheme is to buy three warships from Great Britain, one for the maritime provinces, one for the lakes, and one for British Columbia. In ten years there will be ten thousand trained men in the Dominion.

Toronto, December 2.—Keen disappointment is the keynote to the manifesto issued by the Dominion Alliance at the Liberal temperance platform.

Toronto, December 2.—Biggar, K.C., has been appointed chief solicitor of the Grand Trunk Railway; and Cowan has been appointed assistant solicitor.

THE RETAIL TRADE

IN GERMANY SUFFERING

From the Great Accumulation of Capital. Government to Take Action

Berlin, December 2.—The Reichstag, after a two days' debate, to-day adopted a resolution asking the Government to introduce a bill for the protection of the middle commercial classes against the great accumulation of capital in the retail trade.

A CHRISTMAS
THOUGHT.

Did you ever think how very appropriate a Christmas gift a piano makes. Your daughter or your wife would certainly be charmed with such a thoughtful expression of your affection. Of course, it must be a good instrument. A poor one would defeat the object of the gift. Make it a Heintzman & Co. Piano and it will be a lasting joy to the recipient.

Heintzman & Co. Piano possesses a pure, rich, sustained tone throughout the scale; its action is prompt and elastic, responding instantly to the player's every graduation of touch.

Don't leave it to the last moment. Call at our warerooms now. Let us explain to you the many points of Heintzman & Co. superiority. We will deliver the piano Christmas Eve, if you wish.

Write for some of our booklets—they explain why the Heintzman & Co. is the best piano you can buy.

Convenient and easy terms of payment can be arranged for those who do not desire to pay cash.

NORTHERN ALBERTA

The following letter from a recent arrival in Northern Alberta appears in the North Bend, Nebraska, Eagle: Nainoa, Alberta, November 9 1904.

Editor North Bend Eagle.—I presume some may be interested to know how we have progressed this year in the north-west. We have no complaint to offer. We have had a good year, crops were good and we have had a delightful season. I threshed from my place 8,650 bushels of grain. My oats made 65 bushels per acre and weighed 42 1-2 pounds per bushel. My wheat made 31 1-2 bushels per acre and is No. 1 quality. My barley made about 30 bushel, of good quality. My crop is a fair average of the crops in the Edmonton district.

Prices are not quite up to your prices at present but we expect them to advance a little later and especially next summer. Prices in the United States do not control our prices. Our wheat market is governed by the Fort William market. Wheat at present is 85 cents, best oats, 25 cents; barley, 30 cents. By the best oats I mean milling oats. We have an oatmeal mill that buys and manufactures the best oats into oatmeal and I daresay there is no better oatmeal made than that made by The Brackman-Ker Company of Strathcona, Alberta.

All crops were good here this season. Potatoes the finest I ever saw, and all vegetables adapted to the climate. We have had a very fine fall but no exception to the rule as the fall season is, I think, the most pleasant of the year. We have had no snow yet and have been plowing and working the land preparing for an early seeding next spring. Last night the mercury dropped lower

than an any previous night this fall and this morning there is a crust of frost on the fields sufficient to prevent field work. No doubt many would imagine that Alberta had put on her winter overcoat before this and that the people were wrapped in furs, but it is only a question of time when this country will not be looked upon as an iceberg but a country fit for the best of mankind to live in.

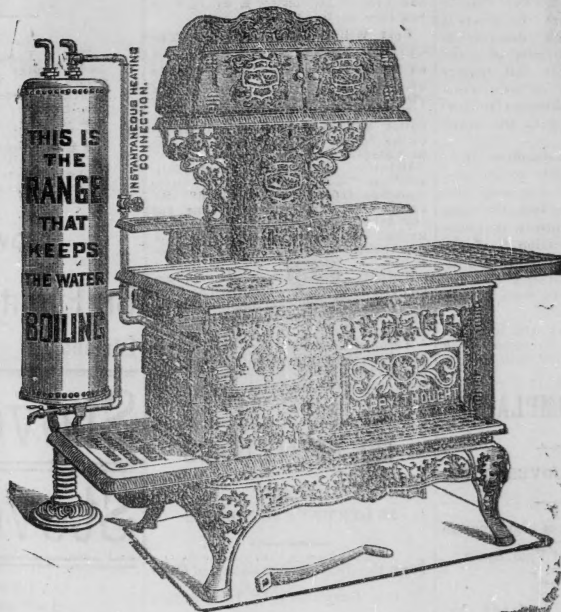

We feel at the present time that this country is entering upon a great prosperity. The feeling is based on the results of the past election which took place on November 3 when the Liberal Government went into power by the greatest majority ever known in Canada. We are now assured of a transcontinental railway, which is to be built to the Pacific during the next five years. This past election had practically one issue, and that was, whether or not this railroad should be built. The Grand Trunk Pacific will build the road, and have put up a \$5,000,000 deposit that it will be built, provided the Government backs them. This the Liberals promised them if they were returned to power, and that they should back them was the hearty will of the people of Canada as demonstrated by the ballot.

The opposing party is the Conservative. Our member, Mr. Oliver, was elected by over 2,000 majority. He represents Alberta north of the Saskatchewan river. The Canadian Northern road is graded to within seventy-five miles of Edmonton. It comes from Winnipeg, and will reach us next summer, so with one railroad already at hand, the second to reach us in less than a year, and the third to penetrate our city and open up the country to the west across the Rockies to the coast within five years, we surely have reason to believe that the country is progressing.

Very respectfully,
L. J. AUTEN.

COLD NIGHTS

Make good stoves a necessity. Ross Bros., Ltd. still have a very fine assortment of Heating Stoves both for wood and coal.

HAVE YOU SEEN THEIR Riverside Oaks.

They are perfect workers and burn either wood or coal. There is no stove made that is so well adapted for a climate like ours, as you can have a strong fire or a light fire, a long fire or a short fire and the price is not much more than that of many inferior stoves.

THEY HAVE A VERY FINE LINE OF RANGES.

Ranges that are Standard and known throughout the world as the best made. If you want a Range you can make no mistake in buying from Ross Bros. as every stove they sell is guaranteed to be just as represented.

Now just a word about a genuine Slaughtering Sale

Of Dry Goods, Clothing and Boots and Shoes that is going on. Ross Bros. are going out of this particular line of their business and want the room for Hardware, so if you want anything in Dry Goods, Clothing or Boots and Shoes now is your time to get them at prices in many cases very much below cost. These goods are not old and shop worn, but are such as many people are buying every day elsewhere and paying almost double the price. It is a pleasure to show the goods at all times as Ross Bros. realize that such goods as theirs must be seen to be appreciated.

SATURDAY, DECEMBER 3, 1904.

**FLAX GROWING AS A PRO-
FITABLE ENTERPRISE**

Contributed by—

At the present moment all of the linen used in Canada is manufactured and imported from abroad, while the Dominion produces an unlimited supply of excellent material suitable for an industry. Edmonton and the surrounding country would produce this raw material abundantly; the soil and climate is admirably suited for the production of the flax plant. When it is considered that one of the most valuable crops raised in Canada is only partly saved and utilized, and that with proper methods Canadian flax fibre can be manufactured into different grades of goods, some conception can be formed of the commercial opportunity offered in this field. Contemplate the use of patented flax cleaning machines of the latest and most improved methods for degumming and bleaching the fibre, whereby the material will be provided as required, suitable for the purposes of a company, and at a cost a little more than nominal, when compared with the systems in general use by the foreign manufacturers.

As a very much larger ratio of profit accrues by obtaining the raw material direct from the flax fields, fibre mills should be established, or receiving depots, fully equipped with flax cleaning and other machinery, in districts wherever flax is grown in desirable and suitable quantities. The fibre thus obtained is there cleaned, treated, baled and shipped direct to the linen mills, to be manufactured into staple goods. The entire system can be operated, from the raw material to the finished goods, to compete with any similar goods imported into Canada, and to that end it would be wise to operate an entire system of manufacturing from the raw material, through the various means of preparing, spinning, weaving, bleaching and finishing, to the folding department where the goods would be folded into that attractive shape in which they will be displayed in the many dry goods stores.

In growing flax an open situation should be chosen, and by no means a field sheltered with trees. Flax accommodates itself to a great variety of soils, flourishing on sandy loams, peaty, chalky or alluvial soils. Flax worth \$350 per ton has been grown on an Irish bog, reclaimed three years before, and having a subsoil of gravel and clay. The best plan is to sow on wheat, oat, or barley stubble, which ensures a much better quality of fibre. Very good crops are obtained after clover lea. One of the greatest advantages attending the culture of flax is the short time it occupies the ground, namely, from April to July. The great objection urged against the culture of flax is, that it is an exhausting crop. This is not true except where the new modes of management, copied from the careful systems of the Continent are not practiced. The restoration of the steep-water and of the woody portions of the plant with the husks of the seeds, to the soil, completely renews the land. Experienced flax growers have obtained similar results, and not only is the crop non-exhaustive under proper management but it is fairly remunerative to the grower.

Then comes another phase of the question. Flax yields prices varying

in accordance with the quality of the fibre. Soil and climatic conditions are two great factors, giving to Edmonton the first rank in both these conditions, calculated to produce the highest price for its fibre. Edmonton has all to gain. Nature has done her part in providing the soil, with the rich plant element of marvelous nutritive, combined with the long summer days, giving two hours more sunlight than any other parts south of us.

The flax plant is not valuable for its fibre alone. Its seed is also of great importance. In many districts and even in whole countries, it is grown for its seed alone, and the fibre is considered so worthless that it is thrown aside and lost. The kernel or almond of the seed contains much fixed oil, and is crushed for the purpose of extracting it. The oil matter pressed from the seed is called linseed oil, and is an article of considerable commercial importance. The refuse is valuable for feeding cattle, and is used extensively for that purpose. It is generally compressed into hard flat pieces, and sold as linseed cake. The seeds, or even the cake, ground into meal is a favorite emollient with the medical men. For this purpose the meal of the ground seed is the best, as it contains valuable properties which the cake lacks. The yield of oil from a bushel of Irish, Scotch or English seed is from ten and three-quarters to twelve pounds. Sometimes the oil is cold drawn, but is usually expressed after the seeds have been subjected to a heat of 200 degrees. It has the property of drying into a hard, transparent varnish, and this peculiarity is increased by boiling the oil, either alone or with some preparation of lead.

It will also be seen that with care and skill, and the employment of sufficient capital, a large and very profitable trade would spring up in Edmonton, the development of which would require a lot of skilled help in the city, and soon other trades would follow in the trail.

The flax itself would in a very few years bring about the manufacture of all kinds of textile goods: a bleachery, dye works, machine shops, ropery, oil works, spinners, etc. and then would follow a boot and shoe factory; and once the city began to advance, in manufactures, its importance would spread with amazing rapidity. Skilled workmen would flock to the city from all parts. Of course, Rome was not built in a day, and this would take some time to make a substantial advance worthy of the city. Once the outside world began to realize that the people of Edmonton were in earnest, capital would flow in quickly.

**MAIL ROUTES AND
SERVICES**

Mail routes and services to and from Edmonton Post Office are as follows:

With Strathecona mail is exchanged morning and evening.

Mail from the south is received daily at 4.30 p.m. Mail for the south leaves daily at 7.45 a.m.

Mail is despatched for Stoney Plain, Onoway, Lac Ste. Anne, Me-wassin, Ingo, Spruce Grove, and Winterburn every Wednesday and Saturday at 8 a.m., and arrives from these points every Tuesday and Friday at 5 p.m.

Mail for Daub, Bon Accord and New Lunnon leaves at 2 p.m., every Tuesday, and mail from these points arrives here at 12 noon on Tuesday.

Mail for Namas is despatched from Edmonton Post Office every Tuesday and Friday at 2 p.m., and mail from this point arrives here every Tuesday and Friday at 12 o'clock.

Mail is despatched from the Edmonton Post Office for Athabasca Landing, Astleyville, and Edison at 8 a.m. every Tuesday; mail from these points arriving every Saturday evening at 6 p.m.

Mail for St. Albert is despatched from the Edmonton Post Office every Tuesday, Thursday and Saturday at 7 a.m., and arrives from St. Albert every Tuesday, Thursday and Saturday at 6.30 a.m.

Mail is despatched from St. Albert for Morinville on Tuesday and Saturday at 10 a.m., and for Riviere qui Barre, Egg Lake, Sion, Legat, Villeneuve and Ray on Saturday at 10 a.m.

Mail is despatched from the Edmonton Post Office for Fort Saskatchewan, Horse Hills, Lamoureux, and Sturgeonville daily at 8 a.m.

Mail for the following points is despatched from Fort Saskatchewan on Tuesday morning at 7 a.m.: Bruderheim, Whitford, Wostok, Star, Pankin, Ross Creek, Tofield, Northern, Logan, Beaver Lake, Karakok, Hunks, Soda Lake, Edward, Colomesa, Skaro, Viking Desjarlais, St. Paul de Metis, Saddle Lake, Dinwoodie, White Fish Lake, Saddle Lake, Lac La Biche, Pozerville, Sacred Heart, Soliman, Warwick and Andrew. Mail for these points must be mailed not later than Monday, 7 a.m., from Edmonton.

Mail for Beaver Hills leaves Edmonton Saturday at 7 a.m.

Mail for Clover Bar, East Clover Bar and Agricola leaves Strathecona at 8.30 a.m. every Saturday.

The office hours of the Edmonton Post Office are 8 a.m. to 7 p.m.

The general delivery is closed at 5.30 p.m. and opened at 7 p.m. for the delivery of the evening's mail.

The lobby is open for box holders until 12 midnight.

Mail for the south is closed at 7 a.m. daily.

MUNICIPAL ELECTION

Edmonton, Dec. 1st, 1904.

Robert Lee, Esq.,
Edmonton.

Sir:—

We the undersigned electors of the City of Edmonton, having confidence in your business ability and integrity, and in view of the interest you have always taken in City affairs, respectfully request you to present yourself as a candidate for alderman in the coming Municipal Elections and we pledge ourselves, should you accept our nomination, to give you our firm support in full confidence of your election.

CIVIC NOMINATIONS

Monday is nomination day in the city of Edmonton. Nominations will be received at the Council chamber from eleven o'clock until noon for the offices of Mayor and eight Aldermen. This year the Mayor and Aldermen will be elected by a general vote of the city. The Mayor holds office for one year and the four Aldermen receive the largest number of votes hold office for two years and the next four Aldermen for one year.

Two trustees of the Board of Trustees of the Edmonton Protestant public school district No. 7, retire this year and trustees will be nominated to take their places.

Three vacancies occur this year in the Board of Trustees of the St. Joseph's Roman Catholic Separate school district and trustees will be nominated to fill these vacancies.

AN EXPLANATION

Editor Bulletin:

In justice to the many friends that I have among the laboring men of the city, I desire to correct an erroneous impression that has been conveyed of the announcement of my candidature in the coming municipal elections. I am not the candidate of any one particular organization, but am being supported by a large majority of the laboring men as well as some of the prominent professional and business men of the city.

Respectfully yours,
WM. A. DEYL.
December 3.

EDUCATION OF BLIND CHILDREN

The attention of the Department of Education was recently called to the fact that there are a few blind children in the Territories who are growing up without the advantages of an education. At the last session of the Legislative Assembly the matter was discussed, and it was decided to place a sum in the estimates to defray the expenses of educating these children if satisfactory arrangements could be made with some institution. The Department now announces that such arrangements have been made with the Ontario authorities, who have agreed to admit to the Institution for the Blind at Brantford, our blind children. Parents and friends of these children who are interested in their education should notify the authorities at Regina in case they wish them to enter the Brantford school.

Debating Clubs for Young Farmers

Farmers' Advocate:—

Every country town situated in a district in which there are a number of young people ought to have a literary society or debating club. The long evenings of winter have come again, and some time for recreation and study may be enjoyed by most persons who care to take it. The fact that a comparatively small percentage of our members of Parliament are farmers is often deplored at agricultural conventions and meetings. The chief reason is because a much smaller percentage of farmers than of men in some other occupations are capable of expressing in public their views upon any question of public concern. They are not accustomed to hearing their own voices in public or joining in debate in an argumentative style.

It is while a person is young that he should cultivate his debating powers. When the years have crept on it is not so easy making a start. From the age of fifteen to twenty-five or thirty is about the best time, and there is no better than in a little country literary society or debating club. Some of the greatest public men of Canada and the United States to-day trace their success to a beginning in some little hall or school-house out in the country, where they were first induced to take part in a simple debate or discussion upon some topic of universal interest.

In Western Canada there are thousands of young farmers who would be benefited by a live debating society in their village or town. They could not only improve their education, cultivate a taste for debating, spend many evenings enjoyably, as well as profitably, but they would be doing a lasting benefit to their companions by affording some entertainment other than that to be found in public houses where intoxicating liquors are kept for sale. Unfortunately, in too many western towns the only place that is open to the entrance of young men who go out from their own homes appears to be the hotel. Why should there not be more reading-rooms available to those who are passing the age at which character is being moulded and the future life of a nation being established.

Upon those who have some knowledge of the benefits to be derived from a debating club or literary society, the "Farmers' Advocate" calls to take some steps in this matter. Several churches have young people's organizations, doing good work in a religious way, but a non-sectarian non-political organization of the young people of any community will do much to add to its enlightenment, and, in time, lead to its being distinguished for its intellectual and enterprising young people.

Apples in Southern Alberta

Farmers' Advocate:

Since it was first suggested that apples might be grown in Southern Alberta, there has scarcely been any time for any number of trees to produce. At a few fairs this year very good samples of standard apples were shown, and there appears very good reason for believing that the time is not far distant when their irrigated lands may produce apples in sufficient quantity to supply local needs. Where fall wheat and clover grow, as they do in the southern country towards the foothills, apple orchards, under the protection of a heavy wind break, generally produce profitably.

Without an experiment station in Alberta, however, it will not be known what varieties of fruit, as well as some grain and vegetables, are the best suited to the soil and climate. Jas. Murray, B. S. A., Western Superintendent of the Seed-Growers' Association, who has been carefully studying the local conditions of the West, and who has been some time in Southern Alberta, while in conversation with a Farmers' Advocate representative, recently gave it as his opinion that apples would likely be grown to some extent on irrigated lands. In many respects, Western Canada has only touched the fringe of her possibilities.

St. Lawrence to be Kept Open

Halifax, N. S., December 1. — The new ice-breaker, Montcalm, built in Scotland for the Dominion Government, and to be employed in keeping the River St. Lawrence open later, and earlier in the season, arrived at North Sydney yesterday for bunker coal.

The steamer, which left Grenock Scotland eleven days ago, had a terrible experience in the gales, but under the conditions, made a wonderfully quick passage. She is commanded by Captain Koenig, of the Dominion Government steamer Druid, and has a crew of forty men.

The Montcalm is 245 feet long, 40 feet beam, and 18 feet deep. The boat leaves immediately for Quebec, where she will endeavor to keep the river clear all the winter between Quebec and Montreal, and will also be employed as lighthouse tender.

Sunlight Soap

represents care, skill and scientific accuracy in its manufacture. That is why it does your washing without shrinking woollens, fraying linens or injuring your hands.

Equally good with hard or soft water.
No scrubbing, no boiling, more cleansing, less toiling.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situate, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, counter-signed in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substantiated.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Telegraph

WEEKLY CLEARING

AS REPORTED BY BRADSTREETS

The Mild Weather in the East has
Been Affecting Trade Conditions.
More Activity Expected

New York, December 2.—The following are some of the weekly clearings as compiled by Bradstreet's for the week ending December 1, with the percentage of increase or decrease as compared with the corresponding week last year:

Montreal, \$26,726,548; Increase, 25.6.
Toronto, \$22,222,726; Increase, 30.3.
Winnipeg, Man., \$9,201,872; Increase 26.8.
Ottawa, \$20,063,882; Decrease, 7.0.
Halifax, \$1,866,000; Increase, 2.5.
Quebec, \$1,577,378; Decrease, 15.1.
Vancouver, \$1,451,668; Increase, 6.0.
Hamilton, \$1,178,898; Increase, 2.7.

London, \$906,361; Decrease, 4.7.
St. John, \$1,075,675; Increase, 6.3.
Victoria, \$760,702; Decrease, 1.8.

Mild weather hitherto experienced in Canada affected the retail trade, but a change for the better is reported, owing to lower temperatures. Wholesale business is reasonably active, and business in holiday goods has opened well.

The enlarged movement of grain in the North-West is also a stimulating feature and helps collections which, however, still have room to improve.

Montreal reports wholesale trade active, and holiday business increasing, but dealers in dry goods will further complain that the weather has delayed business.

Toronto advises indicate more activity in groceries and hardware, but orders for dry goods are slight, though cold weather is expected to improve this shortly. For the week failures number 26, as against 25 in this week a year ago.

TRAP FISHING

ON THE PACIFIC COAST

Limited to Certain Districts. To restore British Columbia Fisheries

Victoria, B. C., December 2.—At a meeting to-day of the executive council, the Government decided to issue licenses for fish traps. No trap will be allowed north of Trial Island, the Government considering it necessary not to cause any avoidable check to salmon reaching the spawn grounds in the Fraser river. Plans will be prepared of the situations open for traps, and will be advertised, and tenders invited for the same, so that all prospective lessees will have equal opportunity for tendering, and it the same time that provincial interests will be protected. The details of the matter are now being worked out in the department. The Government is also considering other measures for the restoration of the fishery to its former flourishing condition.

Senator Templeman Banquetted

Victoria, B. C., December 2.—Senator Templeman was the guest of honor at a banquet to-night at the Grand hotel, tendered by the Liberals of the Province in recognition of the Senator's labors in the interests of the party in British Columbia. The affair was a grand success. The guests numbered many of the Dominion members, elect and Liberal members of the local house.

Steamer is Safe

Everett, Wn., December 2.—The schooner Seawitch, which left here for Ballard last Friday carrying seven persons, has arrived here. It was feared that she had been lost.

Telephones For The West

Ottawa, December 2.—The Royal Gazette notices show that North-west telephone companies desire power to build lines in the Territories and Manitoba.

A Thief Caught

Fort William, December 2.—The man who stole hundreds of dollars worth of furs from Canadian Pacific railway cars during October was caught in Duluth.

AT THE GAS WELL

The past fortnight at the gas well has been chiefly occupied with the installation of the casing. About seven hundred feet of this casing was laid and the work completed. Drilling then commenced again three days ago and shortly after starting the drill the point became disconnected from the drilling machinery. The past two days have been taken up with endeavoring to pick up the drill head. The dropping of the drill head though not by any means a serious accident is annoying in that the work can not be gone ahead with until the drill head is recovered which is expected any time now.

ALBERTA

THE WAR SITUATION

St. Petersburg, December 2.—With the confirmation of the news that the Japanese have occupied 203 Meter Hill, and the report that the Russians unsuccessfully attempted its recapture, the officials of the War Office are beginning to prepare themselves for the inevitable. Golden Hill and Lino T. Hill are higher and dominate 203 Meter Hill, but the officials say that if the Japanese successfully mount heavy guns upon the latter, it will only be a question of days or weeks before the fortress falls. Still, there is not the slightest idea among Stoessel's friends that he will surrender, even if he should be ordered to do so. It is hinted that it is possible that if the fall of the fortress is shown to be inevitable, the Emperor may direct its unnecessary sacrifice of the remainder of its brave defenders. But it is believed by those who know General Stoessel best, that he will literally make his threat good, to hold out to the last man and the last cartridge in Port Arthur. The ships in the harbor it can now be stated on high authority, are in no condition to attempt to break through the investing squadron. The guns of the warships were long ago landed. The marines and sailors have been participating in the land defense. Some of the ships have also been injured by shells. If the fortress falls, it is understood they will be taken outside and sunk in deep water to prevent the possibility of their ever being of service to the enemy.

The question of the advisability of reinforcing Admiral Rojestvensky's squadron with the Black Sea fleet is again being agitated by some of the papers, notably the Novoe Vremya, which points out that with the addition of the Black Sea fleet, Rojestvensky will have superior force which will insure victory.

WEDDING AT POPLAR LAKE

The marriage of Mr. Andrew Kennedy of Poplar Lake to Miss Margaret McDowell, was the occasion of a very pleasant gathering at the residence of the groom's father, Mr. John Kennedy, on Wednesday evening last. The ceremony was performed by the Rev. A. McDonald, pastor of the Baptist church, Edmonston. About forty friends of the young people were present to express their good wishes. The bride received a large number of presents, many coming from her former home, coming from her former home, coming from her former home. The young people leave next week for Mr. Kennedy's farm near Lloydminster.

Underwear a Farmer Needs

Regular weights won't do for the farmer. He must be warmer clad, because his work about the farm and long drives to town keep him out in the cold so much.

Stanfield's Unshrinkable Underwear

comes in special weights, especially for farmers. Special weights don't mean clumsy, bulky garments. Stanfield's Underwear is so warm because of the peculiar knit of the garments. It's pure Nova Scotia wool, that has been treated to take out the shrink and leave in the softness. We—and your dealer—both guarantee Stanfield's to be unshrinkable.

PHONE 36.

I ALWAYS select the tobacco leaves that grow about the middle of the stalk. I find this leaf as filler in my Pharaoh is best because it is perfectly and uniformly ripened and contains just enough gum to sweat properly and so promote the proper curing. The top leaves of the plant I reject—they are too tender and gummy and contain so much of the rancid bitterness of the tobacco that it would take me five years to sweat them out properly—even then they would not be satisfactory. Then I see that the immature—torn—broken and injured leaves are discarded. The filler of my Pharaoh contains only clear—well nurtured—well matured—well cured leaves—the select of each year's Cuban crop.

J. BRUCE FAYNE, Limited, Canada, P.Q.

Weld together by the Canadian Patent and wrapped in a fine wire mesh wrapper. I cannot do this from Holland—the best tobacco money can buy—why my Pharaoh is so good.—J.B.F.

"I used to think when it first came out that there were other shoe polishes equal to it, but now

2 in 1

is the only shoe polish I keep. I fill my window with it and draw a crowd. I believe if I filled my store with it I could

easily sell it all. No kicks now from selling 'just as good goods.'

Black and Tan—10 and 25 cent boxes and 15 cent collapsible tubes. At all dealers.

Early Days in the West

Rev. Father Ledue has returned to the city from the east. He was interviewed in Winnipeg by the Free Press as follows:

Father Ledue, O.M.I., of Edmonton, grand vicar of the diocese of Edmonton, was in the city yesterday as a visitor. Father Ledue was parish priest at Pembina forty years ago, and came to Fort Garry long before the first Riel rebellion. He crossed the plains to Edmonton in 1867, and has been in the North-West ever since.

There were no white men in the far west in those early days," said the aged missionary. When we went out of Winnipeg in 1867 there were a few houses near Portage la Prairie but after that place, how many do you think that we saw between there and Edmonton, and how many white people do you think that we saw? If we should have gathered all the white people between Portage la Prairie and the coast, we should not have had sufficient to organize a parish. We were all in the Indian work in those days, because there were nothing but Indians in all the western country.

"I suppose you found the journey to Fort Garry very arduous and difficult," said the reporter.

"No, it was not arduous nor difficult, nor was it so tedious as you might suppose. We were only a month coming from Montreal to Winnipeg, and the journey was very enjoyable and pleasant. You must not suppose that because you have swift trains and pullman cars, and the telegraph and the telephone, you were so much happier than we were long ago. You can go to Montreal now in two days, but what is the use? In 1864 we came up from Montreal in thirty days. We were camping every night on the prairie; we built a fire and sat about it, and heard stories from the drivers, and told stories about France and Montreal, and when we reached Edmonton we settled down on the prairie and became acquainted with the Indians and the white traders. Now forty summers have passed away and the white men and the Indians who are still alive, are our true friends who will give us all that we ask for, and who are so closely bound to us that we are a large family. You think much of your progress. But if you make so much haste that you cannot become acquainted with your friends, and are in too much of a hurry to show kindness, what is the value? It is better if you lived simply as we did in '64 and become acquainted with one another.

"Yes," continued the venerable vicar, "there was but little railway in '64. We left it in Prairie du Chien, down in Wisconsin, 200 miles from St. Paul. We went by steamer from Prairie du Chien to St. Paul, and there we went nine miles by rail to St. Anthony's Falls. That was the end of the track, and the rest of the way we came on the stage and on the Red river cart.

The plains then were the pasture of the buffalo. We have large herds of cattle now, and many of them more numerous, I am sure, than any herd of buffalo, but I have never seen a herd of cattle which impressed me so greatly as the herds of buffalo which we saw in the early days. The buffalo were seldom seen singly, usually in large numbers, and when moving south or north, would run in bands by the thousands. We, like all other travellers, shot them for food during journeys across the continent, and found the roasted buffalo meat superior to most of the meat which we ate in Europe. Every day we drove for hours in the long daylight of midsummer, and every night we tented on the plains. The summer was just as pleasant, the sunshine was just as bright, the flowers were just as numerous on the plains then as they are now. We drove day after day through a great unending flower garden, and no one who saw the country as we

did could doubt that in the days to come all this great prairie would be peopled, and dotted with villages, towns and cities."

"There is a railway station called by your name, Father Ledue," said the reporter. "Did you plant a colony there?"

"There is a station called after Father Ledue," was the reply, "and there is one called by my name, but it is not owing to the fact that we brought colonists to Canada. It is because we were both early in the country, and remained in the west from the early days. The railway did so much in the memory of former times."

Father Ledue has been in various parts of the diocese of St. Albert as parish priest, and is now administrator of the diocese, with the title of grand vicar.

REVILLON BROTHERS STORES.

Y. M. C. A. WORK

Geo. Irving, Y. M. C. A. secretary for Western Canada will deliver an address in Robertson Hall to-morrow afternoon at four o'clock. All men, and especially young men, interested in securing a Y. M. C. A. building for Edmonton are invited to be present. Mr. Irving has met with considerable success in Y. M. C. A. work elsewhere. He has recently been appointed field secretary to organize Y. M. C. A.'s throughout Western Canada. A Canadian West committee of the Y. M. C. A. has recently been appointed. It will exercise a general supervision of the territory from Winnipeg to the Pacific coast. The members of the committee are:

Dr. Hutchinson, chairman; R. B. Wilson, Vice-chairman; Dr. C. H. Walsh, secretary; D. W. McKenchar, treasurer; J. F. McIntyre, D. A. Mott, W. H. Hutchinson, G. F. Stephens, David Horn, Robt. Muir, J. W. Martin, T. Gordon Russell, W. T. Hart, all of Winnipeg; W. G. Hunt, Calgary; Dr. G. Pollard, Regina; A. E. McKenzie, Brandon; H. R. Smith, Edmonton; and Principal J. H. Riddell, of Edmonton.

STREET RAILWAY MATTERS

The following interesting interview with R. P. Inglis, of Montreal, who is interested in the Edmonton street railway appears in Wednesday's issue of the Free Press:—

R. P. Inglis, of Montreal, who controls the charter of the Edmonton Street Railway company, was in the city yesterday on the way to that leaving for the west on the evening train. This is the seventh trip Mr. Inglis has been compelled to make to Edmonton during the year

in connection with the work of the company.

"According to our charter," said he "we must have our system in operation by the first of July and I have no doubt that it will be. We are to lay about thirty miles of track in all our line running out to St. Albert, Morinville and Fort Saskatchewan.

"We have done everything possible to enable us to give a service satisfactory to the town and remunerative to the company. We have secured a satisfactory franchise; We have bought mines and we hold a large quantity of land. The object of my present trip is to complete arrangements for the building of a power house. Our power can be secured very cheaply in Edmonton, our coal costing us very little. We have a contract to supply coal to the Canadian Northern railway for \$1.75 a ton and we agree to deliver coal in Edmonton for \$2.50 a ton. We have a contract to light the town of Strathcona and we will supply both private light and power to Edmonton and Strathcona alike. We own forty-five hundred lots in Edmonton which we are selling very rapidly, the interest in the western metropolis being very great."

Fire at Red Deer

Red Deer, December 2.—On Tuesday night fire broke out in the store of Phillips & Strong. The building is used as a cigar store, barber shop and confectionery store. The fire started in the back part of the barber shop.

The fire also destroyed the residence of D. Alford.

The contents of the store were completely lost. Some of the household furniture was saved. The loss was \$6,000.

Fort Saskatchewan and Vegreville

STAGE LINE

Leaves Edmonton for Vegreville Monday 8:30 a.m.

LOCAL

The train was one hour late at Red Deer at noon.

The recent cold spell has given way to bright and warm weather today. Sleighb is splendid in the city.

A requisition to K. A. McLeod to become a candidate for city alderman was being circulated yesterday.

W. S. Weeks has announced his intention of being a candidate for alderman in the forthcoming municipal elections.

The officers and members of the Edmonton Fire Department will give an at home in Robertson Hall on Thursday, December 8.

Reserve your seats at Archibald's drug store for the choral concert in Robertson Hall on Tuesday, December 6. See particulars of concert in another column. The play opens to-day.

The Liberal convention of the Edmonton electoral constituency are meeting this afternoon in Sandison Hall to nominate a candidate for the Territorial Assembly. There is a large and representative number of delegates present from all parts of the constituency.

A mass meeting of the young men of the city will be held to-morrow at 4 p.m. in Robertson Hall. Mr. G. W. Irving, B.A., provincial Y.M.C.A. secretary, will deliver an address on the need of a Y.M.C.A. building in Edmonton, and how to get one. Mr. Irving is an experienced and enthusiastic association man, as well as an eloquent speaker. All young men are cordially invited to be present and take part in the discussion which will follow the address.

PERSONAL

J. W. Huff returned last night from a visit to Eastern points.

E. Fontaine, D. L. S., leaves on Monday for Ottawa and Montreal.

G. H. Bridges leaves on Monday morning on a visit to Eastern points.

Walter Scott, M.P., came in on Friday's train, and returned south this morning.

C. J. Carter arrived in Edmonton last night on his return from a trip to Eastern points.

P. A. Lloyd, book-keeper for May & Copp left this morning for London, England. J. W. Reid takes the position.

A. Lessard leaves Monday morning on a visit to his home in Quebec, P.Q. He expects to be away about three months.

John A. McDowell, C. E., arrived last night to proceed to the Peace river to take charge of an exploratory survey of that region. He leaves in a few days for the night.

CHURCH SERVICES

The services in the Presbyterian church to-morrow will be taken by Rev. D. G. McQueen both morning and evening. The Sacrament of the Lord's Supper will be dispensed at the morning service.

Pastor McDonald will conduct the services at the Baptist church morning and evening. The subject of the evening's address will be "A Father's Bitter Lament for his Wicked Son."

The College avenue Methodist church services both to-morrow morning and evening will be taken by Rev. C. H. Huestis, who will preach in the morning from the Book of Job.

Rev. Jno. Tough will conduct the morning service in the Kinistino avenue Methodist church, and Rev. F. W. Cox the evening service.

A lecture will be given in the College avenue Methodist church next Thursday evening under the auspices of the W.F.M.S. The subject of the address will be "Christianity and Other Religions."

The services in All Saints' church to-morrow will be conducted by Rev. H. A. Gray.

A SHORT STRIKE

The new Hudson Bay block being erected on Jasper avenue west was the scene of a short strike yesterday. The plumbers went out at 10 o'clock, and at 11 o'clock carpenters, lathers, plasterers, and electricians went out. The trouble was over the employment of non-union steamfitters. The difficulty was overcome to the mutual satisfaction of the company and of the unions, at three o'clock in the afternoon. Only union steamfitters will be employed. The men are all at work again this morning.

THE WEATHER

Winnipeg, December 3.—The weather yesterday was cold and cloudy. The forecast is for continued cold in Manitoba, but milder in the West to-day. Sunday will be mild in all districts.

Saturday, December 3.

NOTICE.

NOTICE is hereby given that in accordance with the provisions of the North-West Irrigation act, the Canadian Pacific Railway Company has filed the memorials and plans required by the said act with the Commissioner of Public Works at Regina. The applicant applies for the right to divert one-sixteenth of one cubic foot of water per second from the Bigstone Creek, on the southwest quarter of section 10, township 47, range 24, west of the 4th meridian, for domestic purposes, as shown by the plans and memorials. To enable the water so diverted to be used for the said domestic purposes, on the following lands, viz. the right of way of the Company and in their tanks, engines, cars and buildings, the following lands outside the company's property being affected by the proposed works, Nil.
